

Item 1422

1. Product description:

Diamond Paste

Color:	White
Content:	5 g
Presentation:	Syringe
Particle Size:	1 micron
Concentration:	High
Specification:	5 GRAMOS No.01 BLANCA
Base:	Water

1. Application

- Excellent for precision finishing of tungsten carbide molds and semiconductor components, as well as optical and metallographic polishing.
- Formulated with a high concentration of ultra-fine diamond particles (1 micron).
- Suitable for polishing natural and semi-precious stones, cemented carbides, hard metals, bronze, and brass.

- In case of eye contact, rinse carefully with water for several minutes. If irritation persists, consult a physician.
- In case of skin contact, wash immediately with plenty of water and soap.
- Do not smoke, eat, or drink while using the product.
- The Safety Data Sheet (SDS) is available upon request.

2. Operating instructions

- For best results in final finishing, use the paste with felt or flannel products.
- Use a small amount of water for better lubrication.
- When using more than one grade of paste, use a separate felt product for each one to avoid contamination.

3. Safety information

Always wear protective equipment such as safety goggles, gloves, and a mask.

- Improper use may cause injury.
- Work in clean, well-ventilated areas under normal operating conditions.
- Use in ventilated spaces and wear a mask.
- Causes serious eye irritation.
- In case of ingestion, rinse mouth, do not induce vomiting, and seek medical advice.

4. Handling

- The initial inspection must be performed in the original packaging. If there is visible evidence of damage, the merchandise should not be accepted.
- Ensure work is carried out in well-ventilated areas. Avoid stacking the product and prevent dust formation.
- Keep away from ignition sources.
- Avoid release into the environment.

5. Storage

- Store this product tightly closed and only in its original container.
- Keep out of reach of children.
- Reseal tightly after use and store in a location free from extreme temperatures to prevent alteration of the chemical composition, which could affect the product's service life or performance.

6. Packaging units

- 1 piece.
