KIT M-T

1. Product Description:

Rotary Tool Accessory Kit

Content: 180 pieces

Dimensions: Various

Specification: MOTOTOOL

Packaging: Plastic Case

1. Application

- Designed for use with rotary tools.
- Versatile accessory kit for workshop and home use. Suitable for grinding, cutting, cleaning, polishing, and deburring metal, stone, plastic, wood, and many other materials.
- Ideal for maintenance work, arts and crafts, electronics and circuit projects, detailed woodworking, restoration, and general cleaning.

Cutting Disc:

- For cutting metal and plastic.

Sanding Bands and Discs:

- For grinding, sanding, leveling, and finishing wood, metal, and plastic.

Brushes (Nylon, Steel, Brass):

- For cleaning and removing rust or paint.

Diamond Burrs and Points:

- For light grinding, engraving, and detail work.

Aluminum Oxide Mounted Points:

- For controlled grinding of metal workpieces.

Silicon Carbide Mounted Points:

- For controlled grinding of brass, copper, and stone.

Felt/Cloth Wheels with Polishing Compound:

- For polishing and achieving a high-gloss finish.

2. Operating instructions

- Make sure the rotary tool is switched off and unplugged before installing any accessory.

Rotary
Tool

- Select the appropriate collet according to the accessory shank diameter.
- Insert the selected accessory into the collet and tighten it securely using the included wrench.
- Verify that the accessory is properly centered and securely mounted before starting the tool.
- Start the rotary tool at low or medium speed.
- Apply the accessory to the workpiece without excessive pressure; allow the tool to do the work.
- Maintain a steady, controlled motion to prevent surface marks or overheating.
- Adjust the operating speed according to the material being worked.
- To determine the appropriate operating speed and pressure and achieve the best results, test the accessory on a sample piece before working on the final workpiece.

3. Safety information

- Never exceed the maximum operating speed indicated on the product label.
- The use of appropriate personal protective equipment (PPE), including gloves, hearing protection, respiratory protection, and safety glasses, is recommended.
- Improper use may result in serious injury.
- Check the rotary tool for excessive spindle runout or axial play that could cause vibration.
- Do not use damaged or unbalanced accessories.
- Work in a well-lit and properly ventilated area.

4. Handling

- Initial inspection should be performed while the product is in its original packaging. If there is visible evidence of damage, the product should not be accepted.
- Handle all components carefully to prevent impacts or drops. If any component is cracked, broken, or shows visible damage, it must not be mounted or used.

5. Storage

- Store all components of the kit in the original case, in a clean, dry environment free from moisture, dust, and dirt. Avoid prolonged exposure to hot, cold, or wet surfaces.

6. Packaging units

- 1 kit (180 pieces).

7. Total Contents

ACCESSORIES:

- 1: 3/8" Wrench
- 1: 1/2" Sanding Band Drum
- 1: 1/4" Sanding Band Drum
- 1: Threaded Mandrel for Cloth and Felt Wheels
- 1: Screw Mandrel for Cutting Discs
- 1: Screw Mandrel for Sanding Discs
- 3: Rotary Tool Collets

CONSUMABLES:

- 5: 1/2" × 1/2" Sanding Bands
- 5: 1/2" × 1/4" Sanding Bands
- 1: 1" Cloth Polishing Wheel
- 1: Type 1 Felt Polishing Wheel
- 4: 1/2" Type 1 Felt Polishing Wheels
- 1: 3/8" Type 18R Felt Mounted Point
- 6: 3/4" × 1/8" Aluminum Oxide Abrasive Wheels
- 6: 3/4" × 1/8" Silicon Carbide Abrasive Wheels
- 1: 7/8" Nylon Wheel Brush with Shank
- 1: 5/8" Stainless Steel Cup Brush with Shank
- 1: 3/16" Stainless Steel End Brush
- 1: 5/8" Brass Wire Cup Brush with Shank
- 1: 3/16" Brass Wire End Brush
- 1: 5/8" Brass Wire Wheel Brush with Shank
- 45: 3/4" Sanding Discs
- 2: 1-1/4" Fiberglass-Reinforced Cutting Discs
- 1: 1-1/4" × 3/8" × 1/8" Flap Wheel with Shank
- 1: Abrasive Dressing Stone
- 1: Container of Green Polishing Compound
- 30: 15/16" Cutting Discs, 0.9 mm thick
- 46: 15/16" Cutting Discs, 0.6 mm thick
- 1: Type W-235 Silicon Carbide Mounted Point (3/4" × 1/8" × 1/8")
- 1: Type W-235 Silicon Carbide Mounted Point (3/8" × 1/8" × 1/8")
- 1: Type B-134 Aluminum Oxide Mounted Point (3/8" × 1/2" × 1/8")
- 1: Type B-52 Aluminum Oxide Mounted Point (3/8" × 3/4" × 1/8")
- 1: Type W-177 Aluminum Oxide Mounted Point (5/8" × 3/8" × 1/8")
- 1: Type SA Rotary Burr
- 4: Diamond Mounted Points for Engraving
