

Data Sheet

Item
775

1. Product Description:

Stainless Steel and Metal Cutting Disc

Dimensions (in):	4-1/2" x 3/64" x 7/8"
Dimensions (mm):	115 x 1.2 x 22.23
Abrasive:	Aluminum Oxide
Specification:	7AAN36RBFPM2
Max. rpm:	13,300
Line:	EcoCut
Max. speed:	80 m/s

Type 41

D =	115	mm
T =	1.2	mm
H =	22.23	mm

Certification

This wheel is certified by
the Organization for
the Safety of Abrasives.

1. Application

- Precision cutting disc for carbon steel and stainless steel in a variety of forms, including plate, sheet, structural profiles, solid bar, and more.
- Fast cutting with minimal burr formation.
- Ideal for metalworking and fabrication applications, whether in professional shops or at home.
- An excellent choice for cost-conscious users.

2. Operating instructions

- Use with an angle grinder.
- After mounting the disc, allow it to run at no load for one minute to verify that it is not damaged.
- Keep the disc at a 90° angle to the work surface.
- Do not apply excessive pressure or strike the disc against the workpiece.

3. Safety information

- Before mounting or removing the disc, make sure the power tool is disconnected from the power source.
- Never exceed the maximum speed marked on the product label.
- Always use the appropriate safety guard.
- Always wear appropriate personal protective equipment (PPE), including gloves, hearing protection, a dust mask, and safety glasses.
- Use only for straight cuts. Never attempt curved cuts.

- Never use a disc that has been exposed to water.
- Do not use for grinding operations.
- Improper use may result in serious injury.
- Use in accordance with ANSI B7.1.

4. Handling

- Perform the initial inspection while the product is still in its original packaging. If there is visible evidence of product damage, the shipment should not be accepted.
- Handle discs carefully to prevent impacts or drops. If a disc is dropped, cracked, chipped, or suspected of being damaged, it must not be mounted.

5. Storage

- Store discs on a flat surface and protect them from impacts and drops.
- Discs must not be exposed to:
 - (a) Water or other solvents.
 - (b) Extreme temperatures or humid conditions.
- For additional information, refer to ANSI B7.1.

6. Packaging units

- 50 pieces.
